The Small Business Innovative Research Program - SBIR Program

The Small Business Innovation Research (SBIR) program is a highly competitive program that encourages domestic small businesses to engage in Federal Research/Research and Development (R/R&D) that has the potential for commercialization. Through a competitive awards-based program, SBIR enables small businesses to explore their technological potential and provides the incentive to profit from its commercialization. By including qualified small businesses in the nation's R&D arena, high-tech innovation is stimulated and the United States gains entrepreneurial spirit as it meets its specific research and development needs.

SBIR Mission and Program Goals

The mission of the SBIR program is to support scientific excellence and technological innovation through the investment of Federal research funds in critical American priorities to build a strong national economy.

The program's goals are four-fold:

- Stimulate technological innovation
- Meet Federal research and development needs.
- Foster and encourage participation in innovation and entrepreneurship by socially and economically disadvantaged persons.
- Increase private-sector commercialization of innovations derived from Federal research and development funding.

SBIR-Participating Agencies

Each year, Federal agencies with extramural research and development (R&D) budgets that exceed $100 million are required to allocate 2.5 percent of their R&D budget to these programs. Currently, eleven Federal agencies participate in the program:

- Department of Agriculture
- Department of Commerce - National Institute of Standards and Technology
- Department of Commerce - National Oceanic and Atmospheric Administration
- Department of Defense
- Department of Education
- Department of Energy
- Department of Health and Human Services
- Department of Homeland Security
- Department of Transportation
- Environmental Protection Agency
- National Aeronautics and Space Administration
- National Science Foundation

Each agency administers its own individual program within guidelines established by Congress. These agencies designate R&D topics in their solicitations and accept proposals from small businesses. Awards are made on a competitive basis after proposal evaluation.

Three-Phase Program

The SBIR Program is structured in three phases:

Phase I. The objective of Phase I is to establish the technical merit, feasibility, and commercial potential of the proposed R/R&D efforts and to determine the quality of performance of the small business awardee organization prior to providing further Federal support in Phase II. SBIR Phase I awards normally do not exceed $150,000 total costs for 6 months.

Phase II. The objective of Phase II is to continue the R/R&D efforts initiated in Phase I. Funding is based on the results achieved in Phase I and the scientific and technical merit and commercial potential of the project proposed in Phase II. Only Phase I awardees are eligible for a Phase II award. SBIR Phase II awards normally do not exceed $1,000,000 total costs for 2 years.

Phase III. The objective of Phase III, where appropriate, is for the small business to pursue commercialization objectives resulting from the Phase I/II R/R&D activities. The SBIR program does not fund Phase III. Some Federal agencies, Phase III may involve follow-on non-SBIR funded R&D or production contracts for products, processes or services intended for use by the U.S. Government

Farm Loans

FSA makes direct and guaranteed farm ownership and operating loans to family-size farmers and ranchers who cannot obtain commercial credit from a bank, Farm Credit System institution, or other lender. FSA loans can be used to purchase land, livestock, equipment, feed, seed, and supplies. Loans can also be used to construct buildings or make farm improvements.

Housing Assistance

USDA provides homeownership opportunities to low- and moderate-income rural Americans through several loan, grant, and loan guarantee programs. The programs also make funding available to individuals to finance vital improvements necessary to make their homes decent, safe, and sanitary. USDA Multi-Family Housing Programs offer Rural Rental Housing Loans to provide affordable multi-family rental housing for very low-, low-, and moderate-income families; the elderly; and persons with disabilities. In addition, rental assistance is available to eligible families.

Rural Development Loan and Grant Assistance

USDA Rural Development forges partnerships with rural communities, funding projects that bring housing, community facilities, business guarantees, utilities and other services to rural America. USDA provides technical assistance and financial backing for rural businesses and cooperatives to create quality jobs in rural areas. Rural Development promotes the President's National Energy Policy and ultimately the nation's energy security by engaging the entrepreneurial spirit of rural America in the development of renewable energy and energy efficiency improvements. Rural Development works with low-income individuals, State, local and Indian tribal governments, as well as private and nonprofit organizations and user-owned cooperatives.

Beginning Farmers and Ranchers

USDA, through the Farm Service Agency, provides direct and guaranteed loans to beginning farmers and ranchers who are unable to obtain financing from commercial credit sources. Each fiscal year, the Agency targets a portion of its direct and guaranteed farm ownership (FO) and operating loan (OL) funds to beginning farmers and ranchers.

Crop and Livestock Insurance

USDA helps producers manage their business risks. The mission of USDA's Risk Management Agency (RMA) is to promote, support, and regulate sound risk management solutions to preserve and strengthen the economic stability of America's agricultural producers. As part of this mission, RMA operates and manages the Federal Crop Insurance Corporation (FCIC).

RMA has three divisions: Insurance Services, Product Management, and Risk Compliance. Seventeen private-sector insurance companies sell and service the policies. RMA develops and/or approves the premium rate, administers premium and expense subsidies, approves and supports products, and reinsures the companies. RMA also sponsors educational and outreach programs and seminars on the general topic of risk.

Federal State Marketing Improvement Program

This matching grant program, also known as FSMIP, provides matching funds to State Departments of Agriculture and other appropriate State agencies to assist in exploring new market opportunities for food and agricultural products, and to encourage research and innovation aimed at improving the efficiency and performance of the marketing system.

Specialty Crop Block Grant Program

The SCBGP funds can be requested to enhance the competitiveness of specialty crops. Specialty crops are defined as fruits and vegetables, tree nuts, dried fruits, and nursery crops (including floriculture).

The Farmers Market Promotion Program

The FMPP was created through a recent amendment of the Farmer-to-Consumer Direct Marketing Act of 1976. The grants, authorized by the FMPP, are targeted to help improve and expand domestic farmers markets, roadside stands, community-supported agriculture programs and other direct producer-to-consumer market opportunities.

Organic Cost Share Program

AMS administers two organic certification cost share programs. Each program provides cost share assistance, through participating States, to organic producers and/or organic handlers. Recipients must receive initial certification or continuation of certification from a USDA accredited certifying agent (ACA).

Rural and Community Development

Nearly 60 million Americans live in rural areas. The U.S. Department of Agriculture, through its Rural Development mission area, provides financial resources and support for rural communities, residents and businesses.

Affordable and Safe Housing

One of the three divisions of Rural Development, the Housing and Community Facilities Program, invests in providing safe, clean and modest living for those who live outside our urban centers. Whether it's through a loan or loan guarantee to purchase a home; loans and grants to provide necessary repairs; or even rental assistance and financing to build affordable apartment complexes for families or seniors - the housing program ensures that housing is available and affordable in rural communities. Since 2009, we've helped more than 625,000 rural families in more than 21,000 communities buy, repair or refinance a home, and provided funding for more than 1,000 housing developments.

Communities also need facilities that benefit the population. Whether it's a fire station or a food bank, a senior center, hospital or city hall, the Community Facilities loan and grant program can be a financial partner to help provide essential community services. Since 2009, Rural Development has financed nearly 8,000 community facilities projects. Among these projects are more than 900 education facilities, 475 libraries, more than 1,000 health care facilities, and more than 3,400 public safety facilities.

Learn more about Community Facilities Direct Loan and Grant Programs and Community Facilities Guaranteed Loan Program.

Economic Development and Business Support

Through our Business and Cooperatives Program, rural small businesses are given the financial tools to develop and succeed. We've helped save or create more than 375,000 rural jobs since 2009 and provided assistance to nearly 75,000 rural businesses and entrepreneurs. Our Rural Energy for America Program has helped generate an estimated 9.8 million megawatt hours of energy.

Many rural areas suffer from persistent poverty, and Rural Development has made a concerted effort to focus staff resources in 700 persistent poverty counties across the nation to promote economic development through our Strike Force Initiative. We are also working on regional community development strategies, providing resources and facilitating cooperation between federal, state and private agencies to leverage economic investment in rural areas.

Infrastructure Investment

Our Rural Utilities Service provides critical infrastructure investments to help rural communities thrive. Whether it's water or wastewater, or broadband and telecommunications connectivity, or rural electrification, we help our rural communities build the foundation for long-term growth. Since 2009 we've invested in new and improved broadband service to nearly seven million rural residents, 364,000 rural businesses, and 32,000 community facilities, creating or saving more than 25,000 jobs in the process. Our water and environmental investments have helped safeguard the health of more 20 million rural residents through more than 6,700 water and wastewater infrastructure projects

Additional Information on Eligibility:	See Part III, A., Eligible Applicants. Eligibility is linked to the project type. All project types are described beginning in Part II, C.
Agency Name:	National Institute of Food and Agriculture
Description:	This AFRI Challenge Area promotes and enhances the scientific discipline of food safety, with an overall aim of protecting consumers from microbial and chemical contaminants that may occur during all stages of the food chain, from production to consumption. This requires an understanding of the interdependencies of human, animal, and ecosystem health as it pertains to foodborne pathogens. The long-term outcome for this program is to reduce foodborne illnesses and deaths by improving the safety of the food supply, which will result in reduced impacts on public health and on our economy. In order to achieve this outcome, this program will support single-function Research Projects and multi-function Integrated Research, Education, and/or Extension Projects, and Food and Agricultural Science Enhancement (FASE) Grants that address one of the Program Area Priorities (see Food Safety RFA for details).

2017 National Urban and Community Forestry Grant Program

Document Type:	Grants Notice
Funding Opportunity Number:	USDA-FS-UCF-01-2017
Funding Opportunity Title:	2017 National Urban and Community Forestry Grant Program
Opportunity Category:	Discretionary
Opportunity Category Explanation:	
Funding Instrument Type:	Grant
Category of Funding Activity:	Community Development Disaster Prevention and Relief Education Environment Health Natural Resources Science and Technology and other Research and Development
Category Explanation:	The National Urban and Community Forestry Advisory Council seeks innovative (new, cutting-edge or builds upon existing studies) grant proposals for program development, study, and collaboration that will address strategies in the National Ten Year Urban Forestry Action Plan (2016-2026). This Request for Proposals is to address the following priority issues: • Developing a National Urban Forestry Funding Assessment and Methodology • Understand Urban Forest Ecosystem/Ecological Services Detailed information about each category follows this section. Proposals are to meet the request and intent of each applicable category. Organizations, local governments, tribal agencies, and partnerships are encouraged to submit proposals that will demonstrate the reach, resources, and expertise needed to address the three priority issues in ways that will lead to meaningful, replicable results across the country. Potential Innovation grantees are should work collaboratively with other organizations and entities not traditionally involved in urban and community forestry. Applicants should consider multi-year projects and other sources of funds, which may include other Federal cooperative conservation sources. While other Federal dollars or technical support may contribute to the project, they may not be used to match these Federal grant program dollars. The grant review process takes about a year

to review pre and full proposals once they are received. Applicants should state their start and end date accordingly on their SF424. Each category is separate. Please do not merge more than one category content or intent into one proposal, which can result in disqualification of the proposal. Applicants may submit separate pre-proposals for more than one category.

Award Ceiling:	$99,999
Award Floor:	$20,000
Eligible Applicants:	Public and State controlled institutions of higher education Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Agency Name:	Farm Service Agency
Description:	As part of our mission supporting farmers and ranchers, the Farm Service Agency (FSA) provides extensive education and outreach for producers. This typically involves public meetings, mailings, news releases, and interactions with individual producers seeking additional information or to enroll in a program. However, there remains a need for additional outreach and education that could benefit potential participants in FSA's portfolio of programs. This RFA seeks proposals to further support and expand FSA's existing outreach and education efforts. The additional outreach and education could, for example, be public meetings, training sessions, and/or workshops for producers including new and beginning farmers, veterans, underserved communities, and/or established producers. Emphasis will be afforded to proposals that propose to address producers who are ethnic minorities, women, new and beginning, veterans, urban, or who grow non-commodity crops (e.g., fruits and vegetables or specialty crops). Proposals may include innovative outreach approaches that ease the learning curve for farmers and ranchers through training on best practices, common challenges and solutions, and local networking opportunities. The subject matter should include an introduction to FSA, its programs, and common provisions that generally apply. FSA's common provisions include maintenance of producer-level records regarding payment

	eligibility and limitations, conservation compliance, and name and address, payments, and farm and tract information. Additional information regarding FSA is available at www.fsa.usda.gov.

Agency Name:	Department of Commerce
Description:	EDA is committed to fostering connected, innovation-centric economic sectors which support the conversion of research into products and services, businesses, and ultimately jobs through entrepreneurship. See SWTIA § 27. The DOC FY 2014-2018 Strategic Plan sets forth the strategic goal of working within and across ecosystems throughout the country to develop regional innovation strategies, including regional innovation clusters. Regional innovation strategies are a keystone of the Secretary of Commerce's commitment to building globally competitive regions. As part of this strategy, funding is available for capacity-building programs that provide proof-of-concept and commercialization assistance to innovators and entrepreneurs and for operational support for organizations that provide essential early-stage funding to startups. Under the RIS Program, EDA is soliciting applications for two separate competitions: the 2016 i6 Challenge, and the Seed Fund Support (SFS) Grant competition. Applicants may, but are not required to, submit proposals for more than one competition under the RIS Program. Note that the 2016 RIS Program is authorized under SWTIA § 27, which does not restrict the focus of grantees' projects to economically distressed communities.

Posted Date:	Apr 19, 2016
Last Updated Date:	Apr 19, 2016
Original Closing Date for Applications:	Jun 17, 2016 Electronic applications in response to this FFO must be received no later than 11:59 p.m. Eastern Time on Friday, June 17, 2016. Applications received after the deadline will not be reviewed or considered.
Current Closing Date for Applications:	Jun 17, 2016 Electronic applications in response to this FFO must be received no later than 11:59 p.m. Eastern Time on Friday, June 17, 2016. Applications received after the deadline will not be reviewed or considered.
Archive Date:	Jul 17, 2016
Eligible Applicants:	Others (see text field entitled "Additional Information on Eligibility" for clarification)
Additional Information on Eligibility:	Eligible applicants for this program are MEP Centers receiving current cooperative agreement funding from NIST. An applicant MEP Center must form a collaboration, teaming arrangement, or other appropriate relationship with one or more of the current NNMI Institutes. NIST encourages project proposals involving participation from multiple MEP Centers and multiple NNMI Institutes, as well as other collaborating entities such as local economic development organizations, universities, community colleges, technology incubator programs, and other organizations.
Agency Name:	National Institute of Standards and Technology
Description:	NIST invites proposals from current MEP Centers to pilot test approaches to provide needed technology acceleration assistance to small and mid-sized U.S. manufacturers (referred to hereinafter as small U.S. manufacturers) through the establishment of meaningful and results oriented collaborations between the nationwide system of Centers operating as part of the NIST Hollings Manufacturing Extension Partnership (MEP) Program (hereinafter referred to as NIST MEP), and the Institutes participating in the National Network for Manufacturing Innovation (NNMI). The emphasis of these Pilot Projects will be to demonstrate ways to more fully leverage the assets and resources of the national MEP Program to provide assistance to small U.S.

	manufacturers in technology areas that are the focus of the NNMI Institutes. These Pilots will embed personnel from MEP Centers in residence at NNMI Institutes, targeting the cultivation of enduring collaborations among small U.S. manufacturers, NNMI Institutes, and MEP Centers for the benefit of all these entities. The Pilots will accelerate the processes by which small U.S. manufacturers transition the latest and most compelling technological innovations into the manufactured goods needed by our Nation.

Agency Name:	Department of Commerce
Description:	Pursuant to PWEDA, EDA announces general policies and application procedures for grant-based investments under the Planning and Local Technical Assistance programs. Under the Planning program EDA assists eligible recipients in creating regional economic development plans designed to build capacity and guide the economic prosperity and resiliency of an area or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDS), which articulate and prioritize the strategic economic goals of recipients' respective regions. In general, EDA provides Partnership Planning grants to the designated planning organization (e.g., District Organization) serving EDA designated Economic Development Districts to enable these organizations to develop and implement relevant CEDS. In addition, EDA provides Partnership Planning grants to Indian Tribes to help develop and implement CEDS and associated economic development activities. The Planning program

	also helps support organizations, including District Organizations, Indian Tribes, and other eligible recipients, with Short Term and State Planning investments designed to guide the eventual creation and retention of high-quality jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions. The Local Technical Assistance program strengthens the capacity of local or State organizations, institutions of higher education, and other eligible recipients to undertake and promote effective economic development programs through projects such as feasibility analyses and impact studies.

Opportunity Category:	Discretionary
Funding Instrument Type:	Cooperative Agreement Grant
Category of Funding Activity:	Other (see text field entitled "Explanation of Other Category of Funding Activity" for clarification)
Category Explanation:	The Economic Development Administration's (EDA's) mission is to lead the Federal economic development agenda by promoting innovation and competitiveness, preparing American regions for economic growth and success in the worldwide economy. EDA fulfills this mission through strategic investments and partnerships that create the regional economic ecosystems required to foster globally competitive regions throughout the United States. EDA supports development in economically distressed areas of the United States by fostering job creation and attracting private investment. Specifically, under the Economic Development Assistance programs (EDAP) Federal Funding Opportunity (FFO) announcement, EDA will make construction, non-construction, and revolving loan fund investments under the Public Works and Economic Adjustment Assistance

	(EAA) Programs. Grants made under these programs will leverage regional assets to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, encourage economic development, and strengthen America's ability to compete in the global marketplace. Through the EDAP FFO, EDA solicits applications from rural and urban communities to develop initiatives that advance new ideas and creative approaches to address rapidly evolving economic conditions.

Economic Development Administration

Description

Pursuant to PWEDA, EDA announces general policies and application procedures for grant-based investments under the Planning and Local Technical Assistance programs. Under the Planning program EDA assists eligible recipients in creating regional economic development plans designed to stimulate and guide the economic development efforts of a community or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies

(CEDS), which articulate and prioritize the strategic economic goals of recipients' respective regions. In general, EDA provides Partnership Planning grants to the designated planning organization (e.g., District Organization) serving EDA-designated Economic Development Districts to enable these organizations to develop and implement relevant CEDS. In addition, EDA provides Partnership Planning grants to Indian Tribes to help develop and implement CEDS and associated economic development activities. The Planning program also helps support planning organizations, including District Organizations, Indian Tribes, and other eligible Recipients, with Short Term and State Planning investments designed to guide the eventual creation and retention of higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions. The Local Technical Assistance program strengthens the capacity of local or State organizations, institutions of higher education, and other eligible recipients to undertake and promote effective economic development programs through projects such as feasibility analyses and impact studies.

Corporation for National and Community Service

General Program Overview

AmeriCorps provides resources, both human and financial, to organizations that engage Americans in intensive service to meet our country's critical needs.

Grantees use the funding to support AmeriCorps members for intensive service in their community. AmeriCorps grants partially cover the expense of operating an AmeriCorps program and do not cover general organizational expenses. A cash and in-kind match is required.

Funding Opportunity Title:	FY 2016 Training and Technical Assistance – Regional Training Conferences
Opportunity Category:	Discretionary
Opportunity Category Explanation:	
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Other (see text field entitled "Explanation of Other Category of Funding Activity" for clarification)
Category Explanation:	Planning and delivering regional training conferences for AmeriCorps programs and Senior Corps projects.
Expected Number of Awards:	4
CFDA Number(s):	94.009 -- Training and Technical Assistance
Cost Sharing or Matching Requirement:	No
Posted Date:	May 17, 2016
Last Updated Date:	May 18, 2016
Original Closing Date for Applications:	Jun 16, 2016
Current Closing Date for Applications:	Jun 16, 2016
Archive Date:	Jun 17, 2016

Estimated Total Program Funding:	$578,000
Eligible Applicants:	Others (see text field entitled "Additional Information on Eligibility" for clarification)
Additional Information on Eligibility:	This competition is open to State Service Commissions on National and Community Service, and alternative administrative entities, as defined by Section 178(a) of the National and Community Service Act, only. An applicant may apply as a single organization or consortia of organizations, however, one partner must be designated as the lead applicant. Applicants must have a successful track record of providing training and technical assistance to national service programs and projects. A further discussion of the evaluation criteria can be found in the Notice. Organizations that have been convicted of a Federal crime are disqualified from receiving the assistance described in this Notice. Pursuant to the Lobbying Disclosure Action of 1995, an organization described in Section 501(c)(4) of the Internal Revenue code of 1986, 26 U.S.C. 501(c)(4) that engages in lobbying activities is not eligible to apply.
Agency Name:	Corporation for National and Community Service
Description:	This Notice announces the availability of funding for planning and delivering regional training conferences that focus on strengthening and building the capacity of AmeriCorps programs and Senior Corps projects across the country. CNCS acknowledges the need for flexibility in determining the regions where the conferences will be delivered. Regions may align with each of CNCS's five regional clusters as defined in section II. Award Information, or applicants may choose to propose, with justification, one or more geographic region(s) different from the existing CNCS regional clusters. The primary target audiences for training at these regional training conferences are AmeriCorps State and National programs and Senior Corps projects. These regional training conferences are a critical component of CNCS's training and technical assistance (TTA) strategy for 2016-2017, and CNCS intends for these conferences to build on and leverage previous investments to increase the capacity for national service resources to impact communities. While AmeriCorps State and National programs and Senior Corps projects are the primary audiences, it is expected that other national service programs will be invited to participate such as AmeriCorps Indian Tribes programs, AmeriCorps VISTA programs (especially multi-site projects), Social Innovation Fund grantees, and AmeriCorps National Civilian Community Corps (NCCC) staff. Although the entire agenda of these conferences may not be specific to these programs, having broad representation from CNCS programs increases the potential for strong and integrated community impact. The National and Community Service Act of 1990 (NCSA) authorizes CNCS to provide TTA to improve the programmatic quality and accountability of

current and potential national service programs and projects. The current TTA strategy focuses on the implementation of CNCS's performance measures, grantee compliance with statutory and regulatory requirements, as well as the fiscal and administrative requirements for managing CNCS grants - a unique set of knowledge and skills specific to CNCS programs and projects. The Corporation will host technical assistance calls to answer questions from potential applicants about this funding opportunity on: May 20, 2016, 2:30-3:30 pm Eastern Call number: (888) 906-7802Passcode: 1362783

National Service in Your State – Massachusetts

2014-2015

Meeting Community Needs in Massachusetts: More than **10,000** people of all ages and backgrounds are helping to meet local needs, strengthen communities, and increase civic engagement through national service in Massachusetts. Serving at more than **1,300** locations throughout the state, these citizens tutor and mentor children, support veterans and military families, provide health services, restore the environment, respond to disasters, increase economic opportunity, and recruit and manage volunteers. This year, the Corporation for National and Community Service (CNCS) will commit more than **$41,120,000** to support Massachusetts communities through national service initiatives. Through a unique public-private partnership, this federal investment will leverage an additional **$34,340,000** in other resources to strengthen community impact, build local support, and increase return on taxpayer dollars.

AmeriCorps

This year, AmeriCorps will provide more than **2,600** individuals the opportunity to provide intensive, results-driven service to meet education, environmental, health, economic, and other pressing needs in communities across Massachusetts. Most AmeriCorps grant funding goes to the **Massachusetts Service Alliance**, which in turn awards grants to nonprofit groups to respond to local needs. Most of the remainder of the grant funding is distributed by CNCS directly to multi-state and national organizations through a competitive grants process. Other individuals serve through AmeriCorps VISTA, whose members help bring individuals and communities out of poverty by serving full-time to fight illiteracy, improve health services, create businesses, and increase housing opportunities, and AmeriCorps NCCC (National Civilian Community Corps), a 10-month, full time residential program for men and women between the ages of 18 and 24. In exchange for their service, AmeriCorps members earn an education award that can be used to pay for college or to pay back qualified student loans. Since 1994, more than **29,000 Massachusetts** residents have served

more than **40 million** hours and have qualified for Segal AmeriCorps Education Awards totaling more than **$93,100,000**.

Senior Corps
More than **7,400** seniors in Massachusetts contribute their time and talents in one of three Senior Corps programs. Foster Grandparents serve one-on-one as tutors and mentors to more than **4,400** young people who have special needs. Senior Companions help more than **970** homebound seniors and other adults maintain independence in their own homes. RSVP volunteers conduct safety patrols, renovate homes, protect the environment, tutor and mentor youth, respond to natural disasters, and provide other services through more than **540** groups across Massachusetts.

Social Innovation Fund
The Social Innovation Fund transforms lives and communities using limited federal investment as a catalyst to grow the impact of nonprofits with evidence of strong results. It harnesses the expertise of grantmaking intermediaries to identify, evaluate and expand effective nonprofits and engages funding partners to contribute nearly three dollars to every one federal dollar invested. As the Social Innovation Fund network grows programs that work in Massachusetts, more people are able to overcome their most pressing challenges in the areas of economic opportunity, health, and youth development. The Social Innovation Fund is investing **$3,090,000** in expanding the impact of **7** nonprofits in Massachusetts, selected and supported by **7** intermediaries.

The Corporation for National and Community Service is a federal agency that improves lives, strengthens communities, and fosters civic engagement through service and volunteering. CNCS annually engages more than five million Americans in service to meet local needs through Senior Corps, AmeriCorps, and national days of service; improves communities through the Social Innovation Fund, and leads President Obama's national call to service initiative, United We Serve. To learn more visit NationalService.gov or Serve.gov or call 202-606-5000 or TTY 1-800-833-3722.

Resources
Procurement Technical Assistance Centers (PTACs)
Procurement Technical Assistance Centers (PTACs) are charged with assisting businesses in learning how to do business with federal, state, and local governments. PTACs are a local resource available at no or nominal cost that can provide assistance to business firms in marketing their products and services. They offer training to businesses on how to research and bid on contracts, assist with registration requirements, provide bid-matching services, and assist with pre and post contracting issues.

Prime Contractors with Subcontracting Plans [xlsx]
Directory updated 4/19/11
This FY 2014 directory is intended for small business concerns seeking opportunities with DoD prime contractors. The directory is a listing of large business prime contractors who are required to establish subcontracting plans with goals. The report is generated from data contained in the Individual Subcontract Reports (ISRs) submitted in the Electronic Subcontracting Reporting System (eSRS) by contractors and from data contained in the Federal Procurement Data System (FPDS). The directory includes the name of the prime contractor; the major product/service code (PSC) provided to DoD; the major NAICS of the company; name, telephone number and email address of the company's point of contact; contract number with the effective date and completion date, ultimate contract value and obligated dollars. In addition, many companies have websites with additional information which may be useful in your search for subcontracting opportunities or teaming arrangements.

Locate a Small Business Professional
Small Business Professionals serve as the primary liaison between private-sector small businesses seeking to do business with government agencies. Specialists advise small businesses regarding current acquisitions contracts available from the federal government.
Procurement Forecasts & the Department of Defense

The Department of Defense, due to its size and scope, does not have a single, comprehensive source for future procurements. Procurements are made locally and within the various services and agencies.

Business Intelligence, relative to future procurement planning, would be gathered at the local level.

For the purposes of forecasting, knowledge of past behavior is useful. Click here for a table of DoD acquisitions in FY10 summarized by NAICS code. The FY10 data has been validated but FPDS data is dynamic and changes continuously.

Non-Appropriated Fund Customers

Non-appropriated fund customers operate similar to non-profit organizations and include commissaries, exchanges, recreation and fitness centers, dining at officer/enlisted/civilian clubs, and barber/beauty services, just to name a few. For more information click here.

Department of Education

Grant Programs Overview at the Department of Education

U.S. Department of Education

Forecast of Funding Opportunities under the Department of Education Discretionary Grant Programs for Fiscal Year (FY) 2016

This document lists virtually all programs and competitions under which the Department (we) has invited or expects to invite applications for new awards and provides actual or estimated deadline dates for the transmittal of applications under these programs. The lists are in the form of charts -- organized according to the Department's principal program offices -- and include programs and competitions we have previously announced, as well as those we plan to announce at a later date. **If you are interested in applying for any upcoming grants with the Department of Education, please take the time to register with SAM at www.SAM.gov, as you must have an active account in order to submit a grant application with our agency. We recommend you register now even as you are looking for eligible grant programs so that your SAM registration is active by the time the application is published. This will allow you to focus on writing the application during the period the application is available and you are not spending a portion of that time obtaining SAM registration. Please click here to refer to the SAM tip sheet for additional information.**

Note: This document is advisory only and is not an official application notice of the Department of Education. We expect to provide updates to this document starting in the first week of June in a fiscal year and continuing through the following August. Please keep in mind that the dates recorded in this document are **SUBJECT TO CHANGE** and that the average size/number of awards are **ESTIMATES.**

Note on printing: For best results, print this document in landscape orientation.

Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information. Purpose of Program: Performance Partnership Pilots (P3), first authorized by Congress for FY 2014 by the Consolidated Appropriations Act, 2014 (2014 Appropriations Act) and reauthorized for FY 2015 by the Consolidated and Further Continuing Appropriations Act, 2015 (2015 Appropriations Act) and for FY 2016 by the Consolidated Appropriations Act, 2016 (2016 Appropriations Act) (together, the Acts), enable pilot sites to test innovative, outcome-focused strategies to achieve significant improvements in educational, employment, and other key outcomes for disconnected youth using new flexibility to blend existing Federal funds and to seek waivers of associated program requirements. Background: The Acts authorize the Departments of Education (ED), Labor (DOL), Health and Human Services (HHS), Housing and Urban Development (HUD),\1\ and Justice (DOJ),\2\ the Corporation for National and Community Service (CNCS), and the Institute of Museum and Library Services (IMLS) (collectively, the Agencies), to enter into Performance Partnership Agreements (performance agreements) with State, local, or tribal governments to provide additional flexibility in using certain of the Agencies' discretionary funds,\3\ including competitive and formula grant funds, across multiple Federal programs. Entities that seek to participate in these pilots

will be required to commit to achieving significant improvements in outcomes for disconnected youth in exchange for this new flexibility. The authorizing statute states that `` `[t]o improve outcomes for disconnected youth' means to increase the rate at which individuals between the ages of 14 and 24 (who are low-income and either homeless, in foster care, involved in the juvenile justice system, unemployed, or not enrolled in or at risk of dropping out of an educational institution) achieve success in meeting educational, employment, or other key goals." Purpose of Program: The central purpose of the Institute's research grant programs is to provide interested individuals and the general public with reliable and valid information about education practices that support learning and improve academic achievement and access to education opportunities for all students. These interested individuals include parents, educators, students, researchers, and policymakers. In carrying out its grant programs, the Institute provides support for programs of research in areas of

demonstrated national need. Competitions in This Notice: The Institute will conduct nine research competitions in FY 2017 through two of its centers: Catalog of Federal Domestic Assistance (CFDA) Numbers: 84.305A, 84.305B, 84.305D, 84.305H, 84.305L, 84.305N, 84.324A, 84.324B, and 84.324L. The Deputy Director for Policy and Research, Delegated the Duties of the Director, of the Institute of Education Sciences (Institute) announces the Institute's FY 2017 competitions for grants to support education research and special education research. The Delegated Director takes this action under the Education Sciences Reform Act of 2002. The Institute's purpose in awarding these grants is to provide national leadership in expanding fundamental knowledge and understanding of (1) developmental and school readiness outcomes for infants and toddlers with or at risk for disability, and (2) education outcomes for all students from early childhood education through postsecondary and adult education. Applications for grants under the Education Research, Research Training Programs in the Education Sciences, Statistical and Research Methodology in Education, Partnerships and Collaborations Focused on Problems of Practice or Policy, Low-Cost, Short-Duration Evaluation of Education Interventions, Research Networks Focused on Critical Problems of Education Policy and Practice, Special Education Research, Research Training Programs in Special Education, and Low-Cost, Short-Duration Evaluation of Special Education Interventions competitions, CFDA numbers 84.305A, 84.305B, 84.305D, 84.305H, 84.305L, 84.305N, 84.324A, 84.324B, and 84.324L must be submitted electronically using the Governmentwide Grants.gov Apply site at www.Grants.gov. GRANTS & CONTRACTS

Much of the work of the Department of Energy's **Office of Science** (SC) is supported through grants and contractual vehicles. This work is processed through the Office of Science **Grants and Contracts Division** (GCD) which serves as the principal acquisition, financial assistance (grants and cooperative agreements) and contract/grant management advisor to the Director of Science. The GCD provides independent analyses, advice and recommendations on procurement and assistance actions initiated by SC; identifies problem areas, opportunities and management issues and makes recommendations; serves as SC focal point in developing positions and responses to proposed Federal and DOE procurement and assistance regulations and business management policies and procedures; provides advice and guidance and serves as the SC focal point with DOE field offices, laboratories, universities, contractors, grantees and other Government agencies on SC policies and strategies with respect to acquisition, financial assistance and contract/grant management issues.

The Department's **Office of Nuclear Energy** re-established, in FY 1998, a competitive peer-reviewed program to provide grants allowing nuclear engineering faculty and students to conduct innovative research in nuclear engineering and related areas. The awards run from one to three years and are granted in eight separate technical areas related to nuclear engineering: reactor physics, reactor engineering, reactor materials, radiological engineering, radioactive waste management, applied radiation science, nuclear safety and risk analysis, and innovative technologies for next generation reactors, space power and propulsion, or radiation sources. This type of research is vital to the academic community to help promote excellence in nuclear engineering and provide resolution to issues confronting nuclear engineering in general.

The **Office of Nuclear Energy** provides tuition, stipends, and practicums to outstanding graduate students studying nuclear engineering and health physics and undergraduate scholarships and practicums to students pursuing a nuclear engineering course of study to ensure that our country will have an adequate supply of trained nuclear scientists and engineers. As an element of this activity, the University Partnership Program pairs minority institutions with institutions offering a nuclear engineering degree to enable more minorities to enter the field of nuclear engineering.

Federal Funding Alternative To AFG

State Administrative Agencies (SAA) apply for and administer Federal grants on behalf of their States, including FEMA Preparedness Grants. The SAA will work with eligible organizations to comply with the general requirements of grant programs or cooperative agreements. Contact your State's SAA to find out what current Federal funding opportunities may be available to your organization. A listing of the SAAs and points of contact can be found at http://www.fema.gov/library/viewRecord.do?id=6363.

Description:	"The Cooperating Technical Partners Program (CTP Program) exists to strengthen and increase the effectiveness of the National Flood Insurance Program (NFIP) through fostering strong Federal, State, Tribal, regional and local partnerships for the purposes of reducing flood losses and promoting community resiliency. The CTP Program may provide federal assistance, through a grant or cooperative

agreement, to an eligible Cooperating Technical Partner (herein referred to as ¿CTP¿, ¿partner¿ or ¿grantee¿) to perform various projects and activities that stimulate and support the ability of NFIP State Coordinating Agencies and NFIP-participating communities (as defined in 44 CFR Part 59.1) to continue their ongoing regulatory NFIP responsibilities as well as support the ability of States, communities and the public and private sector to mitigate flood risk. The CTP Program seeks to enhance the existing capabilities of CTPs to increase local involvement in, and ownership of, the development and maintenance of flood risk data and products, such as the Flood Insurance Rate Maps (FIRMs) and other risk related products, as well as other support to advance the goals and objectives of the Risk Mapping Assessment and Planning (Risk MAP) program. Partnerships developed through FEMA¿s CTP Program are in the best interest of State and local communities, the NFIP and the public. CTPs may be able to perform activities related to program management, technical risk analysis and mapping, and communication of flood risk hazard data and information. Only qualified partners of the CTP Program are eligible for federal assistance awards through the CTP Program. Recipients must:¿ be a CTP (i.e., have a signed Partnership Agreement with FEMA HQ or a FEMA Regional Office);¿ either be or represent a National Flood Insurance Program (NFIP) community in good-standing, or a FEMA-approved non-profit agency whose primary mission supports the goals and objectives of the NFIP;¿ have existing non-Federally funded processes and/or systems in place to support the collection, development, evaluation, dissemination and communication of flood hazard and risk assessment data and mapping;¿ have the capability to perform funded activities; demonstrate the ability to achieve the CTP Program performance metrics and provide timely and accurate reports to FEMA documenting performance and achievements; and¿ when applicable, agree to perform work in the Mapping Information Platform (MIP) and update the activities within the MIP every 30 days in the Studies Workflow (and more frequently

within the Revisions Workflow).CTPs need to work with FEMA in advance of the application to understand FEMA program priorities, objectives and measures, and to identify specific tasks to undertake. In support of program objectives, FEMA may provide technical assistance, training, and/or data to a CTP to enhance the activities within the project categories. Any funds FEMA provides through a grant or cooperative agreement to complete project activities are in addition to the leveraged resources and data which may be provided by the CTP to complete the tasks agreed upon. When awarded a grant or cooperative agreement through the CTP Program in support of program objectives and to advance program measures, the CTP must comply with the requirements outlined in the announcement, the terms and conditions of the award, as well as the Partnership Agreement and the associated Statement of Work or Mapping Activity Statement approved by FEMA. These templates may be obtained from your granting organization, either the FEMA Region or FEMA Headquarters."

Additional Information on Eligibility:	Eligible Applicants. Depending on the specific component as outlined in the eligibility chart, eligible

applicants may be Qualified Fair Housing Enforcement Organizations (QFHOs) and Fair Housing Enforcement Organizations (FHOs), public or private not-for-profit organizations or institutions, and other public or private entities that are formulating or carrying out programs to prevent or eliminate discriminatory housing practices; agencies of State or local governments; and agencies that participate in the Fair Housing Assistance Program (FHAP). Individuals, foreign entities, and sole proprietorship organizations are not eligible to compete for, or receive, awards made under this announcement.

Agency Name: Department of Housing and Urban Development

Description: HUD is making available through this Education and Outreach Initiative (EOI) NOFA $7,450,000 for The Fair Housing Initiatives Program. Additional funds may become available for award under this NOFA as a result of HUD's efforts to recapture unused funds, use carryover funds, or because of the availability of additional appropriated funds. Use of these funds will be subject to statutory constraints. All awards are subject to the applicable funding restrictions described in the General Section and to those contained in this NOFA. FHIP funds are used to increase compliance with the Fair Housing Act. This year, funding is available under three Initiatives: Private Enforcement (PEI), Fair Housing Organization (FHOI) and Education and Outreach (EOI) Initiatives. Multi-year awards beyond FY2016 funding are subject to appropriations and the availability of funds. For FY2016, funding for each initiative is listed under a separate NOFA. Applicants must apply under the correct NOFA to be considered for funding. Additionally, if an applicant is eligible and applying for funding under separate initiatives and/or components, the applicant must submit a separate application under the correct NOFA for each component the applicant applies. This NOFA will consider applicants applying under EOI only. The following is a general description of the Education and Outreach Initiative (see chart in section III. A. for all eligibility requirements and a listing of related components): Education and Outreach Initiative (EOI). This Initiative provides funding for the purpose of developing, implementing, carrying out, or coordinating education and outreach programs designed to inform members of the public concerning their rights and obligations under the provisions of the Fair Housing Act. EOI applicants may be funded under the following components based on eligibility: Education and Outreach Initiative (EOI) - $7,450,000 (1) National-Based Programs (a) National Media Campaign Component (EOI-NMCC) - $1,250,000 (2) Regional/Local/Community Based Program (a) General Component (EOI-G) - $5,950,000 (b) Tester Coordinator Training (EOI-TC) - $250,000 Applicants may apply for funding under multiple EOI Components as long as the

	applicant meets the specific eligibility requirements for each Component (see eligibility chart in Section III.A.1, and applies under the correct NOFA. Applicants will be funded in accordance with the funding restrictions listed under Section IV.F.5.

Archive Date:	Jul 13, 2016
Estimated Total Program Funding:	$15,000,000
Award Ceiling:	$3,000,000
Award Floor:	$1,000,000
Eligible Applicants:	Others (see text field entitled "Additional Information on Eligibility" for clarification)
Additional Information on Eligibility:	Conditions for Eligibility of Public Housing Authorities Eligible applicants are PHAs that operate one or more public housing developments (as designated for asset management purposes) that

meet the criteria outlined in this NOFA. A list of developments that meet the criteria is provided in Appendix B however, the mere appearance of a development on this list does not necessarily mean that the development is appropriate for a Jobs Plus program. Federally designated tribes and tribally designated housing entities (TDHEs) are not eligible entities under this award. PHAs that received a Jobs Plus program grant in 2014 or 2015 are not eligible for 2016 grant funds. If a PHA is a successful applicant for Jobs Plus funds, the PHA will be required to implement the full 48 month term of the grant at the public housing site(s) for which funds were awarded and commit to not engaging in any significant redevelopment that would result in resident relocation during the 48-month Jobs Plus implementation timeframe. Notwithstanding the above, conversion of public housing assistance to a project-based section 8 contract under the Rental Assistance Demonstration (RAD) will not itself cause the termination of Jobs Plus funds. Grantees that convert the Jobs Plus target projects(s) under RAD will be able to finish out their Jobs Plus period of performance at the subject site as long as the conversion does not entail significant relocation or result in a substantial change in building occupancy. Criteria for Eligible Developments Size: Minimum development size of 200 non-elderly-only households. Non-elderly-only means households where at least one resident is under age 62. Unemployment: At least 50 percent of the households (excluding elderly-only households) contain no member showing earned income in PIC. Place: Because Jobs Plus is a place-based program, units to be served must be contiguous unless

good cause can be shown that the program will be successful in non-contiguous developments. A detailed description as to how the program will be run from one central location and remain accessible to all residents of non-contiguous developments will be required in the rating factors. This requirement may disqualify developments on the Eligible Development list if the Asset Management Project (AMP) is for scattered sites. Only public housing development PHA residents are eligible to be served by the funding. Performance: Developments that belong to a non-performing PHA may be eligible to participate provided HUD has determined the PHA has the capacity to implement and oversee the grant successfully. A non-performing PHA is defined as a PHA that is designated as a troubled performer under the Public Housing Assessment System (PHAS) as listed on HUD's most recent official Troubled List or is designated a substandard performer based on its most recent published PHAS score. See Threshold requirements in Section III.C.3 for more information. PHAs that have more than one development already listed as eligible in Appendix B may apply to serve more than one of the eligible developments as long as they are contiguous or show in the application that they meet the required criteria for place (see above). No Request for Review of Eligibility is required prior to submitting the application. PHAs that have developments not listed on Appendix B that they believe, when combined, meet the criteria, may submit a request for review of eligibility. Individuals, foreign entities, and sole proprietorship organizations are not eligible to compete for, or receive, awards made under this

announcement.

Agency Name:	Department of Housing and Urban Development
Description:	This Notice of Funding Availability (NOFA) announces the availability of funding of approximately $15 million for the Jobs Plus program for Public Housing Agencies (PHAs) to develop locally-based approaches to increase earnings and advance employment outcomes for Public Housing residents. The NOFA will fund initiatives to improve employment and earnings outcomes for Public Housing residents through supports such as work readiness, employer linkages, job placement and financial literacy. To help applicants with the electronic application registration and submission process, the Department advises applicants to use the checklists, user guides, and other help features located at SAM.gov and Grants.gov websites. Both websites provide access to instructions and answers to frequently asked questions which are updated periodically.

Archive Date:	Jul 23, 2016
Estimated Total Program Funding:	$7,897,458
Award Ceiling:	$325,000
Award Floor:	$325,000
Eligible Applicants:	Others (see text field entitled "Additional Information on Eligibility" for clarification)
Additional Information on Eligibility:	Under the PEI NOFA, eligible applicants must be Qualified Fair Housing Enforcement Organizations (QFHOs) or Fair Housing Enforcement Organizations (FHOs). If an organization does not meet the eligibility requirements for the PEI (current QFHO or FHO), the organization may be an eligible to apply under the Education and Outreach Initiative (FR-6000-N-21A) or Fair Housing Organizations Initiative (FR-6000-N-21B) NOFAs. Please see those NOFAs for specific eligibility requirements. Individuals, foreign entities, and sole proprietorship organizations are not eligible to compete for, or receive, awards made under this announcement.
Agency Name:	Department of Housing and Urban Development
Description:	HUD is making available through this Private Enforcement Initiative (PEI) NOFA $7,897,458 for Fair Housing Initiative Programs. Additional funds may become available for award under this NOFA as a result of HUD's efforts to recapture unused funds, use carryover funds, or because of the availability of additional appropriated funds. Use of these funds will be subject to statutory constraints. All awards are subject to the applicable funding restrictions described in the General Section and to those contained in this NOFA. Funding for additional years beyond FY2016 is subject to the availability of appropriations. FHIP funds are used to increase compliance with the Fair Housing Act. This year, funding is available under three Initiatives: Private Enforcement (PEI), Fair Housing Organization (FHOI) and Education and Outreach (EOI) Initiatives. However, for FY2016, funding for each initiative is listed under a separate NOFA. Applicants must apply under the correct NOFA to be considered for funding. Additionally, if an applicant is eligible and applying for funding under separate initiatives and/or components, the applicant must submit a separate application under the correct NOFA for

	each component the applicant applies. This NOFA will consider applicants applying under PEI only. The following is a general description of the Private Enforcement Initiative (PEI) and each PEI component (see chart in section III. A. for all PEI eligibility requirements): Private Enforcement Initiative (PEI). This Initiative provides funding to private, non-profit fair housing enforcement organizations that meet statutory requirements to investigate violations and obtain enforcement of the rights granted under the Fair Housing Act or State or local laws that provide rights and remedies for discriminatory housing practices that are substantially equivalent to the rights and remedies provided in the Fair Housing Act. PEI applicants may be funded under the following component based on eligibility: Private Enforcement Initiative (PEI) - $7,897,458 (1) Multi-Year Funding Component (PEI-MYFC) Total PEI Multi-Year Funding (PEI-MYFC) is $29,375,000 minus $22,452,542 already reserved for FY 2014 and FY 2015 Multi-year grantees), therefore making $6,922,458 available for FY2016 new awardees. (2) Lending Component (PEI-L) - $975,000 Applicants may apply for funding under each FHIP NOFA as long as the applicant meets the specific eligibility requirements for each Initiative/Component, and in accordance with the funding restrictions listed in each NOFA.

Agency Name:	Department of Housing and Urban Development
Description:	The purpose of the Resident Opportunity & Self Sufficiency (ROSS) Service Coordinator (SC) program is to assist residents of public and Indian housing in making progress towards economic and housing self-sufficiency. To accomplish this goal, ROSS provides grant funding to eligible applicants to hire Service Coordinators to assess the needs of public and Indian housing residents and link them to supportive services that enable participants to increase earned income, reduce or eliminate the need for welfare assistance, and make progress toward achieving economic independence and housing self-sufficiency. In the case of elderly/disabled residents, the Service Coordinator links participants to supportive services which enable them to age/remain in place thereby avoiding more costly forms of care.
